Rio reminds one of the Killenny eels, which had been skinned so often that they faked it. Rio has been skinned so often that by this time she must be accustomed to the process.

In 1884 the patent office granted 1,200 patents protecting inventions in the field of electricity alone. In that year 3 per cent of all the patent claims had been themselves with electricity.

An Arkansas town had a shower of frogs the other day that produced a great deal of consternation. Frogs, however, are not an uninvited evil. Their hind legs, deftly browned and dished up on toast form a very toothsome repast. Arkansians are, therefore, to be congratulated rather than commiserated.

Three tramps in London, one of them an American, had gone to sleep one warm night on the Thames embankment. A constable lusted on their moving on, when they caught him up and threw him into the Thames. The American afterward gave himself up, being unable to bear the remorse. Chicago ought to erect a monument in honor of Mrs. O'Leary's cow. If that historic cow had not kicked over the lantern, Chicago, she would have lost a great deal of free advertising, and would today be not a prosperous town on Lake Michigan instead of the magnificent metropolis she now is. Mrs. O'Leary's cow was Chicago's benefactor, and well deserves a monument.

The bluish of vision varies with elevation, condition of the atmosphere, etc. On a clear day an object raised one foot above a level plain can be seen at a distance of 1.31 miles; one 10 feet high, 4.15 miles; one 20 feet high, 5.56 miles; one 100 feet high, 13.1 miles; and one a mile high (as the top of a mountain), almost 36 miles to be exact (35.23 miles).

London has a donkey show every year. It is conducted by very important personages for the benefit of the poor. Prizes are given for all sorts of excellence, but the highest prizes are awarded to the donkey showing the best coat, the object of it all being to make the coster king to his donkey. The affair is always a great success, the donkeys and donkey carts looking smart with their ruses and ribbons, and some of the donkeys showing coats like velvet. There were sixty-seven entries at the show held last week.

There is a large boulder lying in a field near Foremark, Eng., which is known throughout Dorsetshire as "Hanging Stone." The exposed portion of the boulder rises about six feet above the surface of the surrounding level. It has a narrow, thin, indentation running across the top. The mark, so tradition says, was made in this way: A sheep thief in the dead of night, while leaning against the boulder to rest, placed his body above on the flat surface of the stone. The man had the sheep tied with a rope and in its efforts to escape the creature slipped on the opposite side and the rope, catching under the thief's chin, checked him to death. The indentation in the rock was made by the friction of the rope while the dying man was engaged in an effort to extricate himself.

ing to the trouble which recently be-
fell J. W. Porter, of Crow Wing.
Since that time we have been able to
get at the particulars and find that

rested on the same charge. Clifford's
examination was held on Thursday
last, and he pleaded guilty to stealing
certain articles from the house of

ninety days in the county jail by Jus-
tice Kirtland. Porter's examination
was held the following day before the
same justice and he was held to await

sum of \$500 bonds. He has not yet
secured the necessary bondsmen, and
is in the custody of Sheriff Spalding.

Bold Burglary.
C. B. White's gun store was robbed
last night of three Winchester rifles
and two large revolvers, the value of
the goods taken being about \$100.
The job was done by throwing a brick
through one of the large windows on
the side where the guns are display-
ed, after which the articles were taken
out with ease, and the only wonder is
that the entire lot of guns, valued at
about \$600 was not taken. The brick
which was used was still inside this
morning when Mr. White came down
town to open up. The police heard
nothing of the occurrence when it
was going on, and the job was a good
deal similar to the one done at Mc-
Ginnis & Co's a short time ago, when
the whole front of their store was
knocked in by the negro without dis-
turbance to the policemen.
The Annual Fair.

balance of their engagement which
terminates on Saturday night. This
evening the popular play, Pearl of
Savoy, will be presented, and on to-

Stolen Horses.
Chief Barron is in receipt of a com-
munication from Wm. McKinnon,
sheriff of Carlton county, under date
of October 11th, which says that he
has two men in custody there with a
team of horses, which he has every
reason to believe were stolen at or
near Brainerd. The men followed
the railroad track all the way from
this place to Carlton, shipping the
buggy on ahead. While there the
men stole a quantity of stuff from a
livery barn and are being held to an-
swer to that charge. The horses are
young, the mare being three years
old, black, and weighs 1150, while the
horse is four years old, bay, and
weighs 1350, both hind feet being
white. If any one in this vicinity has
lost a team it would be well to com-
municate with Mr. Barron at once, as
the men can only be held a short time
on the charge against them.

A Guilty Pair.
On Wednesday morning Chief Barron
received a telegram from Staples
with instructions to arrest and detain
a man and woman who were aboard
the Duluth train answering to a cer-
tain description. The man when ar-
rested gave the name of Herman
Shender and said the lady was his
wife. They were escorted to the
county jail under protest, of course.
It seems that on Tuesday night they
stopped at the Jones hotel in Staples
and during their stay went through the
pockets of a pair of pants belonging
to J. Barber, of West Superior, tak-
ing about \$68 therefrom, the latter
gentleman occupying an adjoining
room. The pair stoutly protested
their innocence but just before the
train left yesterday morning the man
turned over the amount to Sheriff
Spalding to give to Mr. Barber, it be-
ing understood that no prosecution
would follow and that they would be
allowed to proceed on their journey,
which they did. As the money
changed hands Shender stated that
he hated to give it up for people who
think he had actually stolen it and he
didn't want that impression to get out.

Watkins, of St. Paul, superintendent of the state fish hatcheries, was in the city on Tuesday for the purpose of looking over the ground at Lake View where it is proposed to put in a bass hatchery by the state fish and game commission. The lake which is to be used for this purpose is located just south of Long Lake and lies entirely within the bound of Sheriff Spaulding's property. The reason that this place was selected for the raising of bass fry, for distribution throughout the state, was because it was free from all kinds of fish which feed upon and destroy the young fish as soon as they are hatched, and in consequence the lake will not have to be cleaned before the bass are planted there. Mr. Watkins was very much pleased with the surroundings and as soon as he returns from a business trip to Chicago will proceed to stock the lake. The bass will be taken from Long and Hubert lakes by means of seines and placed in Bass Lake and a watchman will be stationed there to see that the fish are undisturbed. A lease will be made by Mr. Spaulding with the state for the lake for from three to five years.

"Only the Scars Remain."

Says HENRY HUDSON, of the James Smith Woolen Machinery Co., Philadelphia, Pa., who certifies as follows:

"Among the many testimonials which I see in regard to certain medicines performing cures, cleaning the blood, etc., none impress me more than my own case. Twenty years ago, at the age of 18 years, I had swellings come upon my legs, which broke and became running sores. Our family physician could do me no good, and it was feared that the bones would be affected. At last, my good friend

Mother Urged Me to try Ayer's Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. Only the scars remain, and the memory of the past, to remind me of the good Ayer's Sarsaparilla has done me. I now weigh two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have noticed Ayer's Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it did for me."

The Taylors Falls land office will be consolidated with the St. Cloud office January 1st.

They say that the owner of the Valleyrie is not Draven yet over the defeat of his yacht.

A weather prophet predicts that the next storm period will be from the 15 to 18th. Heavy autumnal storm from the 26th to the 30th, with a cold wave the last four days of the month.

Attendance at the fair on Monday (Chicago Day) was 751,646. This is nearly double the amount that attended the Paris exposition on the same day, and three times that of the Centennial exposition at Philadelphia.

At St. Paul a patron of a barber shop has sued the proprietors for \$500 on account of catching the barber's itch while being shaved. Here's a new and unique way of getting even with the talkative knight of the razor.

With the Journal editor's love of orating, what a snap it would be for him to be a member of the United States senate at the present time. We doubt very much if old wind-bag Stewart would be "in it" with the genial friar.

It was 42 years ago that the yacht America won the cup which has been contested for during the week by the English "Valkyrie" and American "Vigilant," and in which the American yacht has won two straight races. There have been 16 international races since the first American victory, but England has never recaptured the cup won by the America in English waters, and probably never will.

Just for an Example.

Here is the way papers in the south express their feelings:

The North Carolina Globe, (democratic) thus expresses its opinion on the question of pensions:

The whole business

is

Theft

and pillage

of the people.

We wish to God that there had been enough democrats in congress to have slapped the

Lousy buggers

Of the North in their

Dirty faces.

Was Too Much For Him.

In the issue of Oct 6th, of the Charlottesville, Va., Progress, Gen. Thomas L. Rosser announced his Democratic allegiance. He says it is with a sad heart and bitter grief that he leaves the democratic ranks as one leaves a sinking ship. He denies that he is drafting a letter announcing himself as a candidate for congress, saying it would be folly to do so before a vacancy occurs. Rosser will take the stump for the Populists, several dates having already been made.

The St. Paul Globe, once an admirer of the ardent Southern says in connection with the above:

Gen. Thomas L. Rosser, of fire-eating-fame, and long resident of the Charlottesville, is indulging his natural predilections in Virginia. Here he has flung his gauntlet into the political arena, and in advance of caucuses and conventions in the district do not test for a seat in congress now represented by Mr. O'Ferrall. The doughty general not only opposes Mr. O'Ferrall, but has announced his purpose of downing President Cleveland and his financial policy. In the face of such a defiance no one will dare to doubt Gen. Rosser's bravery. His discretion, however, is open to question.

Low Wages in the Lumber Woods.

A telegram from Duluth under date:

The question of woods wages for the coming winter is the dominant one now, and on its settlement depends to a good extent the work of the woods this season. This question, however, seems likely to settle itself. At least two firms here have written contracts with all the men they have hired so far to pay on a basis of \$16 a month and \$13 if they go out of the woods before the job is done. This is a pretty low basis and one that some of the heaviest employers in the district do not feel to be just the proper caper. Still it is evident that wages will rule from \$13 to \$14, or possibly \$20 in exceptional cases. Over in the Ashland district I understand they are paying from \$12 to \$14 a month, and find it difficult in getting men. Too low a scale will be likely, however, to result in too low a style of work on the part of the men.

There is likely to be a good crop. Every lumberman interviewed by your correspondent admits that "we will do something anyway."

The general seems to be that the crop will be put in at 75 cents to \$1 a thousand cheaper than usual, because of less wages, cheaper supplies, cheaper teams, etc. Horses are very plentiful and can be had at less than the usual price. It is likely that not far from three hundred and fifty million will be put in in this district, including the operations of loggers in the north and west of this and across country for Canadian mills.

Standard Weights.

At the last session of the legislature the following standard weights per bushel in pounds were established, and a penalty was fixed for taking any greater number of pounds in buying, or giving any less number when selling, unless expressly authorized by special contract agreement, of not less than ten or more than one hundred dollars, or imprisonment not more than ninety days:

Apples, green, 50; dried, 28; beans, 40; barley, 48; buckwheat, 50; bolts, 50; blue grass seed, 14; blueberries, 32; broomcorn seed, 57; corn, shelled, 56; corn in ear, 70; clover seed, 60; hemp seed, 50; Hungarian Grass, 48; millet, 48; oats, 32; onions, 52; orchard grass seed, 14; peas, 60; persimons, 42; rape seed, 50; redtop seed, 13; rutabagas, 52; ryegrass, 50; timothy seed, 45; wheat, 60.

Tramp Shot at Little Falls.

Tuesday morning about 1 o'clock as Conductor Days' train pulled into the depot a man held a revolver in the face of Brakenham Logan and told him to hold up his hands. Logan knocked the revolver up with one hand, and struck the fellow in the face with his lantern. The revolver went off when knocked in the air. Ed. Guin, the night police at the depot, was near an rushed up to help Logan, when the tramp dodged under the cars and began shooting at Guin. The latter got down in the ditch and returned the fire, and several shots were exchanged while Guin was in the ditch and his opponent stooping down on the other side of the cars. Finally the firing ceased and Guin came back to the depot and then came to the city and got Night Police Tourtellot to come up to the depot to go after the man who held up Logan. When Tourtellot got just north of the depot, a short distance from where the shooting occurred, he heard a man groaning, and found him lying on the ground. He was assisted to his feet and was able to walk to the bus with a little help, and was taken to St. Gabriel's hospital. A 38-calibre bull-dog revolver was found on the ground near where the man stood when he was wounded. The man gave his name as James Davis, and said his home was in Dublin, Ireland, and that he was 28 years old and had no near relatives in this country.

The weapon used by Guin was a 32 calibre revolver. Dr. Tracey, railroad physician, attended the man, and found that he was shot in the abdomen, two inches below and to the right of the navel. The doctor gives his opinion that the wounded man will die. A 38-calibre bull-dog revolver was found on the ground near where the man stood when he was wounded. Those who have been fortunate enough to glide from Italy's picturesque shores into the warm blue waters of the Mediterranean and float luxuriously in the salty sea among a perfect school of happy bathers will never forget it. Never Venice, Naples, Capri, Anagni! It makes one's eyes glisten at the very thought of it. To Italy's splendid title, "The Land of Poetry and Song," might also be added "The Land of Baths" were it not that the second name to some fanciful minds would detract from the beauty of the first.

The ancient Romans, borrowing as they did all the luxuries of the East, had their own special baths, and their neighbors, found the baths especially suited to their luxurious tastes and carried them to a degree of excellence which had never been attained, making them not only of immense benefit in a sanitary way, but establishing them as a favorite rendezvous for people of culture and refinement.

An Arkansas toad had a shower of frogs the other day that produced a great deal of consternation. Frogs, however, are not an unmitigated evil. Their hind legs, delicately veined and fished up on stout front legs, are very toothsome repast. Arkansasers are, therefore, to be congratulated rather than commiserated.

Three tramps in London, one of them an American, had gone to sleep one warm night on the Thames embankment. A constable insisted on their moving on, when they caught him up and threw him into the Thames. The American afterward gave himself up, being unable to buy the release. Chicago ought to erect a monument in honor of Mrs. O'Leary's cow. If that historic cow had not kicked over the lamp that started the fire that burned Chicago, she would have lost a great deal of free advertising, and would today be out on a prosperous town on Lake Michigan instead of the magnificent metropolis she now is. Mrs. O'Leary's cow was Chicago's benefactor, and well deserves a monument.

The limit of vision varies with elevation, condition of the atmosphere, etc. On a clear day an object raised one foot above a level plain can be seen at a distance of 1.23 miles; at 10 feet high, 4.15 miles; one 20 feet high, 5.86 miles; one 100 feet high, 13.1 miles; and one a mile high is the top of a mountain, almost 96 miles to be exact (35.23 miles).

London has a donkey show every year. It is conducted by very important personages for the benefit of the poor. Prizes are given for all sorts of excellence, but the highest prizes are awarded to the donkey showing the best care, the object of it all being to make the owner kind to his donkey. The affair is always a great success, the donkeys and donkey carts looking smart with their robes and ribbons, and some of the donkeys showing coats like velvet. There were sixty-seven entries at the show held last week.

There is a large bowlder lying in a field near Foreman, Eng., which is known throughout Derbyshire as "Hanging's Stone." The exposed portion of the bowlder rises about six feet above the surface of the surrounding field and has a narrow ditch or indentation running across the top. The mark, so tradition says, was made in this way: A sheep thief in the dead of night, while leaning against the bowlder to rest, allowed his body above on the flat surface of the stone. The man had the sheep tied with a rope and in his efforts to escape the creature slipped on the opposite side and the rope, catching under the thief's chin, choked him to death. The indelible mark in the rock was made by the friction of the rope while the dying man was engaged in an effort to extricate himself.

Condensed Record of the Business Being Transacted by Our National Law-makers—Routine Report Day by Day.

Washington, Oct. 5.—In the senate the first open session of a conference called the repeal bill was made and attracted the closest attention on both sides of the country. It would prefer a silver coin, in an impassioned speech against the passage of the bill, made compromise the silver question. In reply to the question which he had been asked over and over again as to when a vote would be had on the bill, Mr. Butler said: "Congressmen, the solution of the struggle here. At the conclusion of Mr. Butler's remarks Mr. Blackburn (Dem., Ky.) addressed the senate in opposition to the repeal bill. He was obliged to choose between a gold and silver basis for the financial standard of the country. He chose the gold basis. He hoped some acceptable compromise would be reached. Mr. Blackburn closed his speech by stating that while he was not a friend of silver, which, upon his friendship for, and loyalty to, silver, he would not engage in any obstructive tactics. He would speak for the repeal of the bill, and they were entitled to know their fate.

The board of education held a spe-
cial meeting on Wednesday evening,
nothing but routine business being
transacted. Another room in the
Harrison school was ordered opened
and additional seats purchased for
the new room recently opened. A
new oak sidewalk was also ordered
laid in front of the Lincoln school on
Sixth street.
Rev. E. G. Sanderson, who has oc-
cupied the pulpit at the Methodist
Church in this city during the past
two years returned from the confer-
ence at Minneapolis on Tuesday, and
is preparing to take his departure for
a new field of labor, the conference
having assigned him to Vernon Cen-
tre, Blue Earth county. Rev. Geo.
West has been given the Brainerd
pastorate, he having been stationed at
Paynesville.

In our last issue was an item relat-
ing to the trouble which recently be-
fell J. W. Porter, of Crow Wing.
Since that time we have been able to
get at the particulars and find that
Charles Clifford and Porter were ar-
rested on the same charge. Clifford's
examination was held on Thursday
last, and he pleaded guilty to stealing
certain articles from the house of
Wm. Hoge, and was fined \$100 or
ninety days in the county jail by Jus-
tice Kirtland. Porter's examination
was held the following day before the
same justice and he was held to await
the action of the grand jury in the
sum of \$500 bonds. He has not yet
secured the necessary bondsmen, and
is in the custody of Sheriff Spaulding.

S. S. Watkins, of St. Paul, superin-
tendent of the state fish hatcheries,
was in the city on Tuesday for the
purpose of looking over the ground
at Lake View where it is proposed to
put in a bass hatchery by the state
fish and game commission. The lake
which is to be used for this purpose
is located just south of Long lake and
lies entirely within the bound of Sher-
iff Spaulding's property. The reason
that this place was selected for the
raising of bass fry, for distribution
throughout the state, was because it
was free from all kinds of fish which
feed upon and destroy the young fish,
as soon as they are hatched, and in con-
sequence the lake will not have to be
cleaned before the bass are planted
there. Mr. Watkins was very much
pleased with the surroundings and as
soon as he returns from a business
trip to Chicago will proceed to stock
the lake. The bass will be taken
from Long and Hubert lakes by
means of seines and placed in Bass
lake and a watchman will be station-
ed there to see that the fish are undisturb-
ed. A lease will be made by Mr. Spauld-
ing with the state for the lake for
from three to five years.

On Wednesday morning Chief Bar-
ron received a telegram from Staples
with instructions to arrest and detain
a man and woman who were aboard
the Duluth train answering to a cer-
tain description. The man when ar-
rested gave the name of Herman
Shernder and said the lady was his
wife. They were escorted to the
county jail under protest, of course.
It seems that on Tuesday night they
stopped at the Jones hotel in Staples
and during their stay went through the
pockets of a pair of pants belonging
to J. Barber, of West Superior, tak-
ing about \$68 therefrom, the latter
gentleman occupying an adjoining
room. The pair stoutly protested
their innocence but just before the
train left yesterday morning the man
turned over the amount to Sheriff
Spaulding to give to Mr. Barber, it be-
ing understood that no prosecution
would follow and that they would be
allowed to proceed on their journey,
which they did. As the money
changed hands Shernder stated that
he hated to give it up for people who
think he had actually stolen it and he
didn't want that impression to get out.

A Monstrosity.
Reports from the town of Luxem-

man monstrosity was born in that
town last week to Mrs. Mat Ham-
mording, a farmer's wife. It is said to
be devoid of arms, and the face and
whole upper portion of its body re-
sembles more or less closely that of a
frog. The curiosity is attracting con-
siderable attention and is the subject

Bold Burglary.
C. B. White's gun store was robbed
last night of three Winchester rifles
and two large revolvers, the value of
the goods taken being about \$100.
The job was done by throwing a brick
through one of the large windows on
the side where the guns are display-
ed, after which the articles were taken
out with ease, and the only wonder is
that the entire lot of guns, valued at
about \$600 was not taken. The brick
which was used was still inside this
morning when Mr. White came down
town to open up. The police heard
nothing of the occurrence when it was
going on, and the job was a good
deal similar to the one done at Mc-
Ginnis & Co's a short time ago, when
the whole front of their store was
knocked in by the negro without dis-
turbance the policemen.
The Annual Fair.
The annual fair to be given by the
members of St. Francis Catholic
church will be held at the rink on Oct.
25, 26, 27 and 28th. The ladies will
have a fancy work table and supper
will be served every evening from 6
to 9 o'clock. A cordial invitation is
extended to the public.
J. L. Smith, of Minneapolis, was in

A Good Company.
The Jessaline Rodgers company
has been playing every night this
week at the Sleeper opera house, and
with the best of satisfaction to those
who have attended and witnessed the
performances although the audiences
have not been large. The company
is a good one, far ahead of the average
and those of our readers who are
lovers of this class of amusement
should not fail to attend during the
balance of their engagement which
terminates on Saturday night. This
evening the popular play, Pearl of
Savoy, will be presented, and on to-
morrow afternoon the matinee will
be East Lynne. On Saturday
night the company will close with
Carrotts, or the Days of '49. The
plays presented have all been first
class and the Brainerd public can rest
assured that they will be well repaid
by attending the closing perform-
ances.

Stolen Horses.
Chief Barron is in receipt of a com-
munication from Wm. McKinnon,
sheriff of Carlton county, under date
of October 11th, which says that he
has two men in custody there with a
team of horses, which he has every
reason to believe were stolen at or
near Brainerd. The men followed
the railroad track all the way from
this place to Carlton, shipping the
buggy on ahead. While there the
men stole a quantity of stuff from a
livery barn and are being held to an-
swer to that charge. The horses are
young, the mare being three years
old, black, and weighs 1150, while the
horse is four years old, bay, and
weighs 1350, both hind feet being
white. If any one in this vicinity has
lost a team it would be well to com-
municate with Mr. Barron at once, as
the men can only be held a short time
on the charge against them.
First come, first served, at our Sale
of Dress Goods, commencing Satur-
day this week.
